

htc one[®] mini

Setting up Your Phone

Insert the microSIM card

- 1 To eject the microSIM card tray, insert the microSIM eject pin or a small bent paperclip into the small hole next to the tray.

- 2 Pull the microSIM card tray out, and place the microSIM card into the tray.

- 3 Insert the microSIM card tray into its slot.

Charge the phone

- 1 Connect the USB cable to your phone.

- 2 Plug in the power adapter to an electrical outlet to start charging.

Important: Please use the power adapter and USB cable that came in the box for optimum battery performance.

Ready2Go

AT&T Ready2Go helps you set up your device.

You can:

- Configure email accounts
- Import contacts
- Connect to a Wi-Fi® network

When you first turn on the phone, you'll see the AT&T Ready2Go wizard.

- 1 Tap **Get Started**.
- 2 Follow the onscreen instructions to complete your phone setup.

Get started

- Press and hold the power button on the top panel to turn the phone on or off.
- To lock, briefly press the power button.
- To unlock, press the power button, then pull the lock up.

Personalization

Customize your phone

Customize your phone with wallpapers, widgets, ringtones, and more.

- 1 Tap **Settings > Personalize** to access customization options.
- 2 Choose what you want to change, such as display or sound preferences.
- 3 Select from the options, and then tap **Apply**.

Manage Home screens

- To add widgets and shortcuts to Home screen panels, tap **Settings > Personalize > Customize home screen**. Choose a widget, app or shortcut.
- To move or remove Home screen items, press and hold and then drag the item to a new location or to **Remove** at the top of the screen.

Get updates in HTC BlinkFeed™

Easily access content from popular websites and social networks right on the Home screen.

- 1 In HTC BlinkFeed, swipe down to reveal the menu bar.
- 2 Tap **Topics and services**.
- 3 Swipe left or right to see the categories.
- 4 Tap the options that you want to show on the feed.

For more information, visit att.com/devicehowto

Touch Screen and Navigation

Navigate your phone

- Use your fingertip to lightly tap the screen and select options.
- Use quick flicks of your finger to scroll up/down and left/right.
- **< Back Key:** Returns to previous screen.
- **Home Key:** Takes you to the main Home screen.
- **All Apps:** Shows all your apps in one place.
- **Feeds & widgets:** Shows a stream of your favorite content, as well as Home screen widgets.
- **Notifications bar:** Shows you timely information, like new messages, social network notifications, missed calls, and calendar reminders. Swipe down from the top of the screen to expand the bar and see full details.

Slide your finger horizontally to the left or right and you'll discover additional space for adding icons, widgets, and more.

Contacts and Phone Calls

Add a new contact

The Contacts app combines your contacts from accounts like Google®, Facebook and Microsoft® Exchange ActiveSync®. You can manually add contacts as well.

- ① Open the **Contacts** app.
- ② Tap **+** to add a new contact.
- ③ In the **Name** field, enter the contact name.
- ④ Select the Contact type, for example Google.
- ⑤ Enter the contact information.
- ⑥ Tap **Save**.

Make a phone call

- ① Open the **Phone** app.
- ② Enter a phone number or tap a contact from the matched suggestions.
- ③ Tap **Call**.
- ④ To hang up, tap **End Call**.

Check your voicemail messages

- ① Open the **Phone** app.
- ② Press and hold the number 1 key on the keypad.
- ③ Enter your passcode, if you use one.
- ④ Follow the voice prompts.

Text Messaging

Send a text message

- ① Open the **Messages** app.
- ② Tap **+** to compose a new message.
- ③ Enter a number or tap **Person** to browse your contacts.
- ④ Tap the **Add text** field to enter your message.
- ⑤ Tap **Send** (speech bubble icon). Or press **Command + Enter** to save the message as a draft.

Attach a picture or video

- ① While composing a text message, tap **Attach** (paperclip icon).
- ② Tap **Picture** or **Video**.
- ③ Tap **Gallery** to choose a picture or video from an album, and then tap an item to attach it.
- ④ Tap **Send** to send.

AT&T Messages

View text messages, listen to voicemails, and reply using your phone, tablet, or computer.

- ① Tap **AT&T > Messages** (speech bubble icon).
- ② Enter your 10 digit mobile number.
- ③ Follow the instructions to set up your account.

Please don't text and drive.

Messaging rates apply.

Internet

Browse the Web

- ① Open the **Internet** app.
- ② Slide two fingers apart to zoom in or together to zoom out.
- ③ To visit another website, tap the address bar, enter the web address, and then tap **Go**.
- ④ To open more browser windows, tap **New Tab** (or **New Incognito Tab**).

Use the Browser Bar

Access Facebook and news feeds, create bookmarks, share content, and more.

- To reveal the Browser Bar, swipe up from the bottom of the browser screen.
- To add a button shortcut, find and tap **Add More** on the Browser Bar and select a choice or create one of your own.
- For more information, find tap **Settings** on the Browser Bar, and then tap **Tutorial**. You can also disable the Browser Bar in Settings.

Camera

Take a picture

- ① Open the **Camera** app.
- ② To zoom in and out, slide your finger on the zoom bar.
- ③ Tap  to take the picture.

Record a video

- ① Open the **Camera** app.
- ② Tap  to start recording video.
- ③ Slide your finger on the zoom bar to zoom in and out while recording.
- ④ To take a photo while recording, tap .
- ⑤ Tap  to stop recording.

*Send a picture or video**

- ① Open the **Gallery** app.
- ② Browse an album, and then tap a picture or a video.
- ③ Tap **Share** to share via HTC Share, Bluetooth®, send by email, send as a message, or upload to a social network.

- You'll find the following controls on the Viewfinder screen:

-  Gallery shortcut
-  Camera shutter
-  Video recorder
-  Camera effects
-  Camera options
-  HTC Zoe
-  Flash level

HTC Zoe™

Record memories as a “living album” and capture a series of photos and a 3-second video at the same time.

Take an HTC Zoe photo

- ① Open the **Camera** app.
- ② On the Viewfinder screen, tap  to switch HTC Zoe on.
- ③ Tap  to take an HTC Zoe photo.
- ④ Keep your phone steady until  turns completely red.

Retouch an HTC Zoe photo

- 1 Open the **Gallery** app.
- 2 View the HTC Zoe photo you want to edit.
- 3 Drag the slider under the photo to one of the moments captured in the HTC Zoe photo.
- 4 Tap the screen and then tap **Edit > Retouch**.
- 5 Choose from one of the available retouching options such as **Sequence Shot**, **Always Smile**, **Object Removal**, and more.

Music and Google Play™ Store

Listen to music

- ① Open the **Music** app.
- ② Tap ▼ to browse a category, such as **Artists** or **Albums**.
- ③ While browsing your music collection, tap a song to play it.
- ④ Tap the onscreen icons to control music playback, repeat songs, and more.

Find and install an app

Google Play Store is the place to go to find a variety of apps for your phone.

- ① Open the **Play Store** app.
- ② Browse by featured apps or by category, or search for the app you want.
- ③ Tap the app to select it.
- ④ To download or purchase, tap **Install** (for free apps) or the price button.
- ⑤ If you agree to the conditions, tap **Accept & download** or **Accept & buy**.

A Google Wallet™ payment method is required to purchase an app. You need to associate a valid credit card or debit card to your Google Wallet account to purchase an app.

AT&T DriveMode®

When your vehicle is in motion, automatically respond to incoming text and email messages. Texting while driving...it can wait.

- Tap **AT&T DriveMode**  in the app tray to open the app.
- To access settings or the menu options, turn AT&T DriveMode off.

AT&T DriveMode is free to AT&T customers. Standard data and messaging rates apply to auto-reply messages.

* Data charges may apply.

Bluetooth, Wi-Fi and Mobile Hotspot

Pair with another Bluetooth device

- ① Tap  > **Settings**.
- ② Under **Wireless & networks**, turn on Bluetooth using the **On/Off** option.
- ③ Tap **Bluetooth**, and then tap **Scan for devices**.
- ④ Tap an available device to pair.

Connect to a Wi-Fi network

- ① Tap  > **Settings**.
- ② Under **Wireless & networks**, turn on Wi-Fi using the **On/Off** option.
- ③ Tap **Wi-Fi**, and then choose a Wi-Fi network to connect to (secured networks require a passkey).

Share your connection (Tethering and Mobile Hotspot*)

- To use tethering, connect the device you want to tether to your phone with a USB cable. Tap  > **Settings**. Under **Wireless & networks**, tap **More > Mobile network sharing**. Tap **USB network setting**, and then select **USB tethering**.
- To enable a portable hotspot, tap  > **AT&T > Wi-Fi Hotspot**. Set a password, and tap **Portable Wi-Fi hotspot**.

* Requires a minimum DataPro 5GB plan. Devices tethered or connected to your Mobile Hotspot use data from your plan. Overage charges apply if the included monthly data allowance is exceeded. Performance may vary depending on the number of devices connected and other factors. To help minimize security risks, use the default security settings and set a secure and unique password. If you do not enable password protection others will be able to use your hotspot connection.

Network Notifications

Your 4G LTE® wireless device will indicate which of AT&T's wireless networks you are connected to. A network indicator does not necessarily mean that you will experience any particular upload or download data speeds.

Connected to AT&T's 4G LTE network.

* Connected to AT&T's HSPA+ network. AT&T's HSPA+ network is capable of delivering 4G speeds when combined with enhanced backhaul. 4G availability is increasing with ongoing backhaul deployment.

Connected to AT&T's EDGE/2G network.

Actual data upload and download speeds depend on various factors, including the device, network utilization, file characteristics, terrain, etc. Learn more at: wireless.att.com/learn/articles-resources/wireless-terms.jsp, your AT&T Wireless Customer Agreement, Section 3.2 Where and How Does AT&T Service Work?

* Limited 4G LTE availability in select markets. 4G speeds delivered by LTE, or HSPA+ with enhanced backhaul, where available. Mobile broadband service limited to AT&T 4G and 4G LTE coverage areas. Compatible device and data plan required. LTE is a trademark of ETSI. Learn more at att.com/network.
